In addition, the **Contact-Making Seminar** will enable online and in-person **networking** among experienced and newcomer organisations interested in project cooperation, coming from Sub-Saharan Africa, but also from the European Union and countries associated to the Erasmus+ Programme.*

*This year's event focus on **the role of education in the Green Transition**, aligned with the [European Green Deal](#) and its strategies for greener economies, as well as the [Global Gateway](#) strategy. The event will showcase how different types of Erasmus+ actions can contribute to developing the green competences and skills needed to tackle global sustainability challenges. Synergies between projects, institutions, and political bodies will be presented and discussed in order to obtain a broader perspective on this crucial topic.*
